

APPLE COMPUTERS — SEE THE NEW ONES IN THE LAB

This class will get you comfortable working on an Apple computer. The lab has been updated with brand new apples!

MAKE YOUR OWN T-SHIRT, COFFEE MUG OR MAGNET

These are just fun classes. Come design and print your own shirt, mug and or magnets. These are three different classes.

TABLET'S

Wondering if the IPAD2 is all it is cracked up to be. How about the other tablets, are they any good? Come learn how to use the 3 most popular tablet s.

CREATE YOUR OWN KIDS BOOK (OR ANY OTHER KIND YOU WISH)

This class will have you writing a very simple book, including photos or pictures of your kids, grandkids, sisters, friends, etc. Completely customize them... the perfect gift!

LEGO MINDSTORM

Again, this is an incredible and fun class. Using special software design and build your own robot.

WHAT IS SKYPE?

Any ideas? This class will teach you how to Skype and save money. You will be using software to make voice calls over the internet!

X10

X10 equipment can be used to turn lights and appliances on and or off, run cameras or other sensors. It can be computer controlled, set on a schedule or operated by remote control. Come learn all about it.
